

OMNL CENTRAL BANK

Digital Identity & Website Colour Specification

Identity Standard

The approved OMNL identity uses the eight-point Maltese cross and a regal deep-red, white/ivory, black and gold palette. The digital system below converts that visual identity into repeatable website tokens while preserving the premium metallic character of the master logo.

Core Colour System

Colour	HEX	RGB	CMYK	Primary use
OMNL Sovereign Gold	#C9973A	(201, 151, 58)	(0%, 25%, 71%, 21%)	Primary metallic/accent; rules, icons, premium highlights
OMNL Highlight Gold	#E3B85B	(227, 184, 91)	(0%, 19%, 60%, 11%)	Hover states, illuminated details, secondary highlights
OMNL Deep Gold	#8A5A16	(138, 90, 22)	(0%, 35%, 84%, 46%)	Shadows, borders, restrained gold text
Hospitaller Crimson	#A30F18	(163, 15, 24)	(0%, 91%, 85%, 36%)	Primary heritage red; calls to action and seals
Deep Crimson	#68070C	(104, 7, 12)	(0%, 93%, 88%, 59%)	Dark red panels, gradients, pressed states
Maltese Ivory	#F5F1E8	(245, 241, 232)	(0%, 2%, 5%, 4%)	Cross/ceremonial light neutral, premium backgrounds
Institutional Black	#111111	(17, 17, 17)	(0%, 0%, 0%, 93%)	Primary dark background
Charcoal	#242424	(36, 36, 36)	(0%, 0%, 0%, 86%)	Cards, navigation, elevated surfaces
Warm Stone	#D7D0C2	(215, 208, 194)	(0%, 3%, 10%, 16%)	Borders, muted panels, supporting neutral
Pure White	#FFFFFF	(255, 255, 255)	(0%, 0%, 0%, 0%)	Accessible text and clean backgrounds

Website Implementation

Primary dark: #111111 **Elevated dark:** #242424 **Primary gold:** #C9973A **Heritage red:** #A30F18 **Ivory:** #F5F1E8.

Use gold as an accent rather than a body-text colour. Use crimson selectively for actions, institutional seals and heritage cues. White or ivory should carry most long-form text against dark surfaces.

Logo Clear Space & Scaling

Maintain clear space around the full logo equal to at least the height of the small shield in the CENTRAL BANK line. Do not allow navigation, headings, borders or imagery to enter this zone. Use the crest/icon variants for favicons and compact mobile placements.

Digital Assets Included

Transparent PNG: 4096, 2048, 1024, 512 and 256 px. WebP: 1024, 512 and 256 px. Icon PNG: 512, 192, 180, 64 and 32 px. CSS design tokens, JSON palette data and this PDF specification are included in the package.

Accessibility

WCAG contrast must be validated in the final interface. Metallic gold is decorative; do not depend on gold or red alone for status, warnings or other semantic information.
